## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- mas*
- I. Claims 1-18 and 20-33, drawn to a gaming method and system that provides a player the opportunity to play the game and a chance to play a bonus lottery game, classified in class 463, subclass 20.
  - II. Claims 19 and 34-35, drawn to gaming method and system that tracks a player's financial transaction, classified in class <sup>705</sup>~~463~~, subclass <sup>14</sup>~~29~~.

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because each invention has specific technical features. The subcombination has separate utility such as a gaming machine that provides a player the opportunity to play a game and a chance to play a bonus lottery game.

*mas*

Because these inventions are distinct for the reasons given above and the search required for Invention I is not required for Inventions <sup>II</sup>~~III~~, restriction for examination purposes as indicated is proper.
